

AMTECH_{LC} HORIZONTAL SERIES CARTRIDGE COLLECTORS

**HIGH PERFORMANCE. DOWNWARD FLOW.
ENERGY EFFICIENT, HORIZONTAL CARTRIDGE
DUST COLLECTORS.**

CARTRIDGE AIR CLEANING

Contaminated air is drawn through high-efficiency cartridge filters, where the particulate is collected on the outside of the media. Filtered air is pulled through the system and exhausted. The reverse jet pulse cleaning system extends filter life and decrease maintenance costs.

HIGH-PERFORMANCE CARTRIDGES

With a 99.7% efficiency rating for submicron (0.5) particulate, extra-large circular filters are horizontally oriented for uniform dust loading and efficient cleaning.

FEATURES AND BENEFITS

Heavy Duty Welded Construction.
Powder Coated Finish prevents fading and chalking.
Single movement access handle for quick and easy filter removal and replacement.
Heavy Duty Lifting Lugs for safe and secure installation.
Digital Pulse Control for optimal Filter Cleaning and Filter Life.

APPLICATION DESIGNATIONS

The ATH Series is designed with a full range of capacities for a vast array of applications, such as grinding, welding, buffing, smelting, bulk powder handling and more.

OPTIONS AND ACCESSORIES

Explosion Relief Venting
Blower Silencer Packages
HEPA or Safety After-filters
Drum Lid Latch Kits
Sprinkler Heads
Abrasive Inlets
Filter upgrades for Difficult Applications
Hopper Slide Gates
Catwalk and Ladders
